EDUCATION

Bachelor's Degree in Information Technology Sciences - Software Engineering

Eduvos | Cape Town, Western Cape

2022 - 2025

MTN Next Gen Women in STEM Program

MTN | Cape Town, Western Cape

2024 - 2024

I successfully completed this renowned program, which empowers women in STEM fields. I gained valuable skills and insights by connecting with industry leaders, MTN executives, and practical opportunities in the sector.

Git & GitHub Certification

Le Wagon | Online

2024 - 2024

Certification in Time Management for Personal & Professional Productivity

Coursera | Online

2024 - 2024

Higher Certification in Information Systems

Eduvos | Cape Town, Western Cape

2021 - 2021

ABOUT ME

Full Stack Developer with a solid foundation in programming, data structures, and algorithms. Passionate about technology and continuous learning, I enjoy working on challenging projects that foster collaboration and deliver value. I work well in teams, I am organized and dedicated, and strive to continuously grow both personally and professionally.

EXPERIENCE

Process Automation Engineer – IBM BAW

Millennium Atlantic Bank | Luanda, Angola

Feb 2025 – Present

- Analyze and troubleshoot bugs in workflow processes, conducting root cause analysis through system log investigation and process flow debugging.
- Collaborate with development teams to identify, diagnose, and resolve backend defects and contribute to the implementation, improvement, and maintenance of automated workflows, ensuring alignment with business rules.
- Optimize system performance and production stability through routine housekeeping activities.

Full Stack Developer

Edhost Pty Ltd | Cape Town, South Africa

Sep 2024 – Jan 2025

- I independently developed the frontend and backend of two mobile applications (client and professional) for scheduling beauty salon services.
- I used Firebase for authentication and real-time data management.
- Through self-taught learning in React Native, I was able to develop and deliver functional, cross-platform mobile applications aligned with the project's needs.

Software Developer (Internship)

R & M Group | Cape Town, South Africa

Aug 2024 – Aug 2024

- I developed a full-stack to-do list application using Next.js on the front-end and Node.js on the back-end.
- I implemented CRUD functionalities using MySQL and developed/tested APIs with Postman to ensure robust and functional integrations.
- I wrote and ran unit tests with Jest and used GitHub for version control.

ACKNOWLEDGEMENT

- **Best Student in Software Engineering:** Recognized as the top student in her Software Engineering class and ranked among the top 10 students on campus.
- **Invited to become a Golden Key Member:** Among the top 15% of students at Eduvos; I am currently part of the community.
- **2nd Place in the Empire Foundation's Hackathon Against Unemployment:** Co-author of the KwaMe app, awarded among 100+ teams.

SOFT SKILLS

These interpersonal skills are based on my Clifton Strengths® Top 5 assessment, highlighting my natural strengths in work ethic, collaboration, problem-solving, and continuous improvement.

- **Organized** and **disciplined**, focused on the efficient execution of tasks
- **Committed to fairness**, **respect**, and equal treatment for all
- **Quick learner**, motivated by continuous development
- Results-oriented, with a strong **work ethic**
- **Collaborative** and works well in a team.

LANGUAGE

Portuguese (native)

English (fluent)

Capstone Project
Eduvos | Cape Town, South Africa
Jun 2024 - Aug 2024

- I led a team in developing an Academic Performance Tracker designed to support students in monitoring and managing their academic performance.
- We developed a user interface with AI-based study assistants and secure data storage.
- We conducted research to identify gaps in current academic tools, creating a solution that addressed the main challenges.

TECHNICAL SKILLS

Web Development

- HTML5, CSS,
- JavaScript, PHP

Database Management

- MySQL
- Microsoft SQL Server
- Firebase

Full-Stack Development

- Next.js, Node.js, Tailwind
- CSS, React Native
- API Development: Postman
- Design and UI/UX

Workflow & Automation

- Business Automation Workflow
- Process Flow Analysis & Debugging,
- Process Implementation & Maintenance
- Production Support & Incident Management

Others

- Version Control: Git & GitHub
- Java Programming (Data Structures) and Object-Oriented Programming
- Rest API

PROJECTS

E-commerce - SecondChance Imperium
I developed an e-commerce platform with secure checkout and inventory management.

Link: E-commerce Project

Banks in Financial Difficulty
I implemented a model to assess bank safety based on total assets.

Link: Banks in Financial Difficulty

To-Do Application
I developed a full-stack application with CRUD functionalities and unit tests.

Link: Aplicação To-Do-List

Rock, Paper, Scissors Game

I created an interactive game with a score counter and autoplay.
